

MEASURING THE FOOT

SIZES

A size is a series of measurements, expressed in points, that characterise a foot, last or shoe. There are different size systems, each with its own history and logic: The Paris Point (EUR), the American Point (US) and the English Point (UK).

The Mondopoint (MP) system, resulting from work carried out by more than 18 countries and governed by international standard ISO 9407, has been created to harmonise the scales.

STEP 1

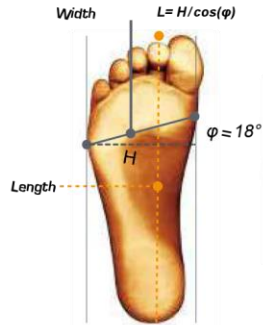

Measurement of the length and width of the foot

1
Analysis of the foot length

2
Analysis of the foot width

STEP 2

Pressure analysis

Analysis of the foot pressure

1

2

3

Feet Revelator™

1. Two pressure points
2. Anatomical pressure
3. Uniform pressure

ETAPE 3

Step 3: analysis of volume and shape

Analysis of the volume and shape of the foot

Podoscope

1. High-arched foot
2. Medium-arched foot
3. Low-arched foot
